

Virtual 30x30 Workshop 8 of 8

Pathways to 30x30: #1, #8, and #9

This workshop highlights three specific conservation mechanisms from the Pathways to 30x30 document:

- #2 - Executing Strategic Land Acquisitions (Urban Focus)
- #8 - Maximizing Conservation Investments
- #9 - Promoting Complementary Conservation Measures (Tribal Focus)

Join us to learn about how to use these three pathways in your biodiversity, equity, and climate resilience work.

10 - 11:30 am | Zoom

TORI
Kjer

Pathway #2 - Executing Strategic Land Acquisitions (Urban Focus)

Tori Kjer will share her experiences transforming vacant urban properties into green spaces that benefit the community. She will share her strategies and experiences in identifying, planning, fundraising, and purchasing these properties, as well as overcoming the challenges of working on brownfields and smaller vacant lots. Tori will provide insights and tips for anyone interested in creating and preserving green spaces in underserved areas. This presentation focuses on Pathway #2 - Executing Strategic Land Acquisitions.

JULIE
Turrini

Pathway #8 - Maximizing Conservation Investments

Achieving 30x30 will require myriad conservation funding and financing tools and alignment of public and private funding. Discussion will focus on current investment trends in philanthropy, including current priorities and approaches as relates to biodiversity, equity, and climate resilience goals. Additionally, lessons shared on how private funders are coordinating and collaborating with public funders on projects and funding alignment.

MATTHEW
Teutimez

Pathway #9 - Promoting Complementary Conservation Measures (Tribal Focus)

Matthew is a member of California's Environmental Protection Agency's Tribal Advisory Committee where he works with California Tribes and the State's Environmental Boards, Departments, and Offices to support tribal involvement and environmental concerns. Matthew will discuss traditional ecological knowledge and how Tribes are working to enhance and develop environmental policies to work towards restoring, preserving, and protecting the natural environment for our future generations. Content will highlight Pathway #9, which promotes complementary conservation measures.

TORI
Kjer

Los Angeles Neighborhood Land Trust

Tori Kjer is the Executive Director of the Los Angeles Neighborhood Land Trust, a nonprofit organization that strives for equity and justice in creating and preserving green spaces in under-resourced communities. She has a master's degree and a license in landscape architecture, and has over 10 years of experience in advancing community health through projects and policies that foster access to fresh food, stormwater capture, and green space development. She leads the identification, planning, and development of new parks and gardens throughout greater Los Angeles County, collaborating with partners and community stakeholders to address their needs and priorities. Tori is passionate about making LA a greener and healthier place.

JULIE
Turrini

Resources Legacy Fund

Julie Turrini focuses on conservation financing, real estate transactions, and conservation philanthropy, with particular emphasis on providing strategic advice in structuring guidelines and procedures for program-related investments and projects. Before joining Resources Legacy Fund, Julie served as senior attorney for The Nature Conservancy's California Program. In that capacity, she provided legal support for real estate acquisitions and dispositions, government and private grant and loan financings, and stewardship matters for the Cosumnes River, Delta, and Northern Sierra projects. Previously, Julie was a partner with various Sacramento law firms, focusing on commercial real estate, land conservation, low-income housing, and general corporate matters. She is a graduate of the UC Davis School of Law.

MATTHEW
Teutimez

Gabrieleño Band of Mission Indians - Kizh Nation and Laboratory of Indigenous Knowledge Systems (LINKS)

Matthew is an enrolled member of the Gabrieleño Band of Mission Indians – Kizh Nation and has served as Tribal Biologist since 2010. Matthew has been designated by his Tribe to possess and share Kizh-Gabrieleño cultural knowledge and practices taught to him by Chief Ernie P. Teutimez-Salas along with Elders of the Kizh-Gabrieleño Tribe. Mr. Teutimez received both his Bachelor of Science and Master of Science degree in Biology from California State University, Long Beach and is the Tribe's specialist in ethnobotanical and cultural uses of native plants and animals including the prehistoric distributions of natural resources throughout the ancestral territory of the Kizh-Gabrieleño Tribe.
