

## Green Vision Map Property Submission Form

In 2012, Friends of Harbors, Beaches, and Parks created a parcel-level version of the Green Vision Map and guidelines for submitting new properties for consideration on the Map. These guidelines will help us more accurately determine what properties get included on the map and for what reasons (e.g., culturally significant sites, endangered or threatened species, or rare habitat types).

If you would like to see a revision to the Green Vision Map, please complete this form and send it to: [GreenVision@FHBP.org](mailto:GreenVision@FHBP.org).
